**Subject:** Cessation order lifted

As of noon today, June 22, 2006, I am lifting the cessation order, MC-06-01-03 (1), that was issued to Bown Stone Products, Inc. for an unpermitted quarry on June 5, 2006. I am informed that an SMO application has been submitted to cover the disturbance area, and that an appropriate reclamation guarantee has been posted with the Division.

Work may resume on the site, keeping disturbance within permitted or proposed permitted areas. Please stake the areas or limits called out by the SMO (Small Mine Operator) applications. Also, please continue working with the division to conclude the appropriate paperwork. Thank you for your cooperation. If you have questions, please call.
